

Module Handling Station (Copy)

Category: Mechatronics · Model reference: MZM-2019

SPECIFICATIONS

Composition

Module Handling Station.

Transfer the work piece using pneumatic gripper

Faulty product is assorted by slide

- Size: 750(W)×750(D)×1000(H)mm
- Weight: 67Kg
- Input power: AC 220V, 60Hz
- Output power: DC 24V, 3A
- Operating pressure: 5 ~ 6 bar
- Interface : 1. Digital Input/output (default) Interfacing module, electrical

Specification

- Working Table
- Service Unit FRL
- Roadless Linear Cylinder
- Air Gripper
- I/O Terminal for Panasonic Communication PLC
- Multi-pin plug distributor
- Holder module
- Diffuse sensor
- Slide module
- Valve terminal
- Start-up valve with filter control valve
- Aluminum profile plate
- Profile plate connector
- Control Panel for Switchers
- Tabletop power supply unit
- work piece set and Cable
- Trolley
- Panasonic PLC for Programming
